WENTWORTH PEWTER

Wentworth Pewter is a hallmark of quality, heritage and craftsmanship. Each of our products has been lovingly handcrafted, one piece at a time, at our works in Sheffield, UK, the heart of the metalwork industry.

From flasks and tankards to goblets, baby gifts, tableware and trophies, we believe a special gift deserves special treatment, and it's the unique combination of innovative design and traditional skill that makes Wentworth Pewter stand out. Hold one of our products in your hand and you'll be able to see and feel the difference by the weight, finish and polish of every piece.

We're a family-owned business run by Maggie, Richard and Jayne Abdy with pewter-smithing in the blood. Jayne is our lead designer; she trained in metalwork design here in the City of Sheffield. She follows in the footsteps of skilled pewter craftsman, Arthur Richard Wentworth, who founded Wentworth Pewter in 1946.

Loved all over the world

Our pieces have featured in Hollywood movies and in some of the world's most iconic stores. We feel honoured to have customers across the globe, from the UK to Europe and the USA. They choose Wentworth Pewter for quality, tradition and to give someone special a gift to treasure for a lifetime.

Special commissions

We offer an in-house design service for unique pieces and special awards. With our design and cutting facilities, we can develop our product ranges to create a set of special pewter pieces tailored to your business, organisation or club. Whether you want our team to design something for you, or you have your own design in mind, we'll go out of our way to deliver something beautiful and individual to mark your occasion.

An ancient metal with 21st century lustre

Pewter possesses a unique combination of qualities. It retains its sheen, is hardwearing and is incredibly flexible to work with, making it the ideal material for developing and crafting new designs. It's therefore no surprise that pewter has been in continuous use since the Bronze Age and is one of the world's oldest manufacturing industries.

Engraving

Say it in words with a personal message on your handcrafted gift. Whether it's for an awards ceremony, wedding, 10th anniversary (celebrated with pewter and tin), corporate gift, sporting achievement or another special occasion, most of our products can be engraved. With our state of the art machines we can engrave any corporate logo, crest, coat of arms or design you wish.

We'll do our best to accommodate your preferred font and can provide proofs of engraving so you know exactly what your message will look like in place.

The Wentworth Pewter touchmark

Our touchmark appears on most of our products and is your guarantee of authenticity, quality and craftsmanship.

It consists of five symbols:

ARW – the initials of our founder, Arthur Richard Wentworth, who founded the company in 1946.

92 – the minimum percentage of tin, the fourth most precious metal.

EPU – our European Pewter Union membership.

ABPC – the Association of British Pewter Craftsmen mark.

The two sheaves of arrows are part of the City of Sheffield's coat of arms
